

FIG. 1

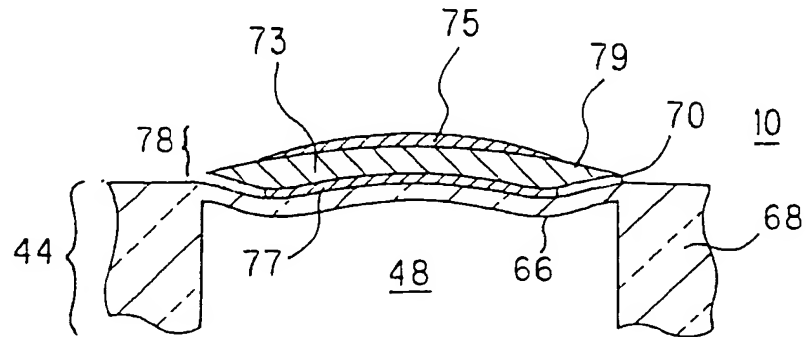

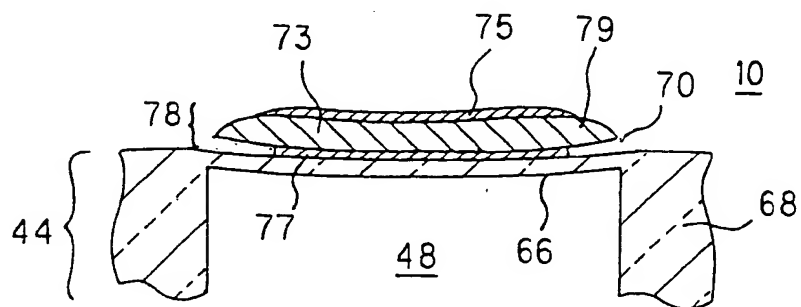

FIG. 2

This diagram shows a cross-sectional view of a second embodiment of the device. It features a central core (48) with a different internal structure than the first embodiment. The core is surrounded by a layer (77) and an outer shell (70). The shell has a textured surface (79) and a layer (76) on top. The device is shown in a cross-section with dashed lines indicating internal features. The label 44 is on the left, and 78 is on the right. The label 20 is at the bottom right.
